

Create a Link

Go to the the page to which you want to link.

Click in the URL to select the link and click “Control C” to copy it.

Go back to the post page and type this in where you want link to appear:

```
<a href="URL">link text to appear on page</a>
```

“Control P” to past the link where it says URL above. Delete “URL”

Replace “link text to appear on page” with the words you want to appear as a link in the post.

Include <i> and </i> around the text if it is a title. For example:

```
<a href="https://www.amazon.com/Portrait-Artist-Biography-Georgia-OKeeffe/dp/0671016660"><i>Portrait of an Artist</i></a>
```

will appear as [*Portrait of an Artist*](https://www.amazon.com/Portrait-Artist-Biography-Georgia-OKeeffe/dp/0671016660)
